Career Objective — Aspiring Front-End Developer seeking an entry-level opportunity to build user-friendly web applications, contribute to real-world projects, and grow in a professional environment.

Academic Record

Master of Computer Application <i>Acropolis Institute of Technology and Research, Indore</i>	2024–2026 CGPA: 7.67
Bachelor of Science in Mathematics <i>Government Girls P.G. college, Ratlam</i>	2021–2024 CGPA: 7.23

Core Skills

Programming Languages: Java, SQL
Web Technologies : HTML, CSS, JavaScript
Tools : GitHub, VS Code, Canva

Training & Internship

LLM Post-Training Intern – Ethara AI – Evaluated and reviewed AI-generated responses based on project guidelines – Contributed to the evaluation, fine-tuning, and alignment of Large Language Models (LLMs) – Maintained quality, accuracy, and consistency across assigned tasks	13 Jan – 9 May 2026
Training in Generative AI – CodeBetter – Learned Python programming fundamentals and core programming concepts – Worked on projects involving data analysis and visualization using NumPy, Pandas, and Matplotlib – Gained foundational knowledge of Machine Learning and Generative AI	08 Sep – 01 Dec 2025

Projects

E-Waste Facility Locator – Developed responsive front-end pages for an e-waste awareness platform using HTML, CSS, and JavaScript – Created a basic chatbot to assist users with e-waste-related information and navigation – Focused on improving user awareness and accessibility for e-waste disposal facilities	
Real Estate Landing Page – Designed and developed a responsive real estate property listing website using HTML, CSS, and JavaScript – Built an interactive and user-friendly interface with API integration to display dynamic property data from the backend – Improved website responsiveness, clean UI design, and accessibility across different devices while working with backend-connected data (Node.js, MongoDB, JSON)	

Certifications

Programming in Java – NPTEL (SWAYAM) – Learned core Java programming concepts including object-oriented programming, control structures, and functions. – Gained understanding of classes, objects, inheritance, polymorphism, and exception handling	
Database Management System – NPTEL (SWAYAM) – Studied database fundamentals including ER model, relational model, normalization, and transaction concepts – Worked with SQL queries for data retrieval, manipulation, and database operations	

Achievements

National Conference Participation – Chameli Devi Group of Institutions, Indore – Presented a research paper titled “E-Waste Facility Locator” at the National Conference on Multidisciplinary Research in NextGen AI, IntelliCloud, and IoT Systems – Showcased the project concept and its role in promoting e-waste awareness and accessibility
